## ABOUT THE CONFERENCE

CBN strives to create collaborative partnerships that build knowledge and skill on the community level. To make this happen, CBN hosts an annual conference which provides attendees with the tools that they need to continue to provide necessary services to the community. Through informative and interactive workshops, conference attendees will learn ways to improve and expand their delivery of services, and strategies for ensuring organizational growth and sustainability.

## About CBN

The Community Builders Network (CBN) is a coalition of coalitions. Our membership consist of youth serving organizations who share a commitment to the healthy development of children, youth and families. We have worked with over 100 different coalitions since our beginning and currently have more than 40 active coalitions.

CBN is the only organization of its kind in our community. It fulfills the need to engage youth and adult volunteers in our efforts to support children within our neighborhoods. It creates a collaborative partnership that builds both knowledge and skill at the community level.

CBN offers financial and technical support, networking opportunities and educational training opportunities to promote drug-free communities and positive youth development.

## Major Activities

The Community Builders Network provides training and technical assistance to its member coalitions to increase the capacity of community-based, faith-based and grass roots groups to positively impact the lives of children, youth and families through multiple training events annually. These events include two annual prevention training conferences and one annual community-wide health fair. The organization publishes two newsletters annually. In 2007, we served more than 1300 youth and families.

## Workshop Topics

Adulthood: A Barrier to Youth Engagement
